Brief Report on Certificate course in Herbal Medicine

(February, 2020 to April, 2021)

Herbal medicine has a long tradition in all cultures. Applications in practice have proven the huge benefits of herbs. As well as relieving symptoms, herbal medicine also works on a deeper level to help patients return to full harmony. Herbal medicine is becoming ever more popular, as ever more people seek out qualified herbalists.

Course Overview

Length of Study: 03 Months or 90 days (depending on chosen schedule)

Hours: in an average 45 hours

College Locations: M.G. College, Armori, District Gadchiroli, Burdi, Wadsa Road.

Certificate course: Herbal Medicine

Approval by: UGC sanctioned.

Herbal Medicine certificate course is divided into three parts and takes 03 months to complete depending on chosen schedule. Course run under the guidance of Principal of our college.

CERTIFICATE COURSE OBJECTIVES:

1. The Herbal Medicine certificate course provides high quality training which equips graduates to build successful practices.
2. It is carefully structured. Each study unit builds on the previous one, allowing students to develop their confidence and skills, and reach their full potential as Herbalists.

ABOUT THIS CERTIFICATE COURSE:

There is strong demand for alternatives to pharmaceuticals for a variety of common illnesses due to concerns of safety, efficacy, and a desire for more "natural" products. Despite this growing interest, "conventional" healthcare providers may have little to no knowledge about herbal medicines, which is further compounded by the sometimes misleading information in the media and on the internet. This course provides the necessary background for providers to begin to incorporate herbal medicines into their practice, particularly in regards to their therapeutic properties, efficacy (or lack thereof), and safety concerns, including quality control and potential adverse effects.

The use of herbal medicine, as one element of complementary and alternative medicine, is increasing worldwide. Little is known about the reasons for and factors associated with its use. This study derives insights for the use of herbal medicine regarding the usage aims, role played by the type of illness, reasons for preferred usage and sources of information. The major use of **herbal medicines** is for health

promotion and therapy for chronic, as opposed to life-threatening, conditions. However, usage of traditional **remedies** increases when conventional **medicine** is ineffective in the **treatment** of disease, such as in advanced cancer and in the face of new infectious diseases.

Why study Herbal Medicine in our college?

- In-depth, practice-oriented study leading to successful Herbalists.
- Excellent up-to-date educational material including ICT and practical based lectures
- Focus on whole, organic western herbs treating the whole person
- Experienced & supportive lecturers who are herbalists themselves
- Have your own finance & business plan, blog and social media

Maintenance and Repair of Domestic Appliances

Theory

Unit I Electric Mixer and food processor

- 1.1 Introduction to electric mixture and food processor
- 1.2 List of main parts of mixer and food processor
 - a) Motor b) Switch c) Base unit (Body)
 - d) Supply cord e) Interlock Lever f) Overload Circuit breaker
 - g) Cupler h) Indicators i) Connector strip
 - j) Accessories of mixer
 - 1) Stainless Steel Jars or Plastic jars 2) Rubber ring
 - 3) Dome 4) Stopper 5) Dry grinding Blade
 - 6) Wet grinding Blade 7) Mincing blade 8) Whipper Blade
 - 9) Spatula 10) Diagram of all parts
- 1.3 Working principle, Circuit diagram and working
- 1.4 Common faults, testing and repairing
 - 1) List of common faults their causes and remedies
 - 2) Testing of motor
 - 3) Control switch
 - 4) Overload circuit breaker
 - 5) Supply cord with the help of multimeter and test lamp
- 1.5 Precaution :- Precaution while handling mixer

Practical

- 1) Dismantling and reassembling of electric mixer
- 2) Testing, fault finding, repair and over hauling
- 3) Workshop Visit

Unit - II **Electrical Fan**

2.1 Introduction of electrical fan

2.2 Types of fans

- a) Table fan b) Ceiling fan c) Exhaust fan
- d) Pedestal fan e) Cabin fan

2.3 Construction :- List of main parts for each fan

- i.e.
- a) Motor b) Blades c) Canopy
 - d) Regulators e) Specific part
 - f) Oscillating mechanism g) Stand h) Down rod
 - i) Capacitor j) Base diagram of each parts

2.4 Working principle

- i) Working principles of fan along with circuit diagram and working of fan

2.5 Common faults, list of common faults their causes and remedies

Overhauling and Repairing procedure and , maintenance for all types of fans

Testing of motor, Capacitor, Regulator with the help of series test lamp and multimeter.

Precautions while handling fans

2.6 Speed control

Speed control of fans

2.7 Installation of exhaust and ceiling fan

Practical :- 1) Dismantling and reassembling of electric fans

2) Testing, fault finding, and repair of fans

III) Room Coolers

3.1 Introduction to room coolers

- a) Exhaust type b) Window type c) Blower type

3.2 Construction

List of main parts

- a) Motor b) Pump c) Body
d) Control switch e) Cooling pads f) Water level indicators
g) Supply chord h) Diagram of each parts

3.3 Working principle & Working of each type of room cooler along with circuit diagram.

3.4 Common faults, testing and Repairing List of common faults, their causes and remedies.

Testing of motors, Pump, Switch, capacitor with the help of series test lamp or multimeter. Repairing procedure for room cooler to removing the various faults.

3.5 Installation

Installation of room cooler

Precaution while handling room cooler

3.6 Overhauling

Overhauling procedure of room cooler

CERTIFICATE COURSE IN HUMAN RIGHTS

15 FEBRUARY TO 30 MARCH 2021

(35 hours)

Introduction:

This course has been designed to give students an insight of perspectives of Human Rights. The course will enhance their expertise over the subject and will be an important value addition to the CV. This course is designed by the people having expertise over the subject matter and every module is prepared in simple language. The study group comprise principal and subject expert from the college, particularly the faculty with specialization in human rights.

Human Rights are those rights which every human being enjoys on the basis of equality irrespective of caste, race, religion, place of birth, sex or any other economic and social status. These rights are guaranteed under the constitution of India in the form of Fundamental Rights and Directive Principles of State Policy. Human rights are based on the principle of respect for the individual. Their fundamental assumption is that each person is a moral and rational being who deserves to be treated with dignity. They are called human rights because they are universal. Whereas nations or specialized groups enjoy specific rights that apply only to them, human rights are the rights to which everyone is entitled—no matter who they are or where they live—simply because they are alive. There is no question these are important rights, but the full scope of human rights is very broad. They mean choice and opportunity. They mean the freedom to obtain a job, adopt a career, select a partner of one's choice and raise children. They include the right to travel widely and the right to work gainfully without harassment, abuse and threat of arbitrary dismissal. They even embrace the right to leisure.

The main Aims and objectives of the 'Certificate Course in Human Rights' are as follows:

Aims & Objectives: -

1. To enhance Human Right knowledge among students.
2. To give information about the history of human rights and modern human rights as well.

Brief Report on **Certificate course in Herbal Medicine**

(10-Nov, 2021 to 05-Jan, 2022)

Herbal medicine has a long tradition in all cultures. Applications in practice have proven the huge benefits of herbs. As well as relieving symptoms, herbal medicine also works on a deeper level to help patients return to full harmony. Herbal medicine is becoming ever more popular, as ever more people seek out qualified herbalists.

Course Overview

Length of Study: 45 days (depending on chosen schedule)

Hours: in an average 45 hours

College Locations: M.G. College, Armori, District Gadchiroli, Burdi, Wadsa Road.

Certificate course: Herbal Medicine

Approval by: UGC sanctioned.

Herbal Medicine certificate course is divided into three parts and takes 45 days to complete depending on chosen schedule. Course runs under the guidance of Principal of our college.

CERTIFICATE COURSE OBJECTIVES:

1. The Herbal Medicine certificate course provides high quality training which equips graduates to build successful practices.
2. It is carefully structured. Each study unit builds on the previous one, allowing students to develop their confidence and skills, and reach their full potential as Herbalists.

INTRODUCTION:

Herbal medicines derive from the plants and plant extracts having medicinal value. During the metabolic processes, plants become the source of a variety of chemicals, which can be classified into primary metabolites that are produced by all the plants, and secondary metabolites that are produced by only some of the plants. Many of these secondary metabolites have therapeutic properties and hence are used for producing drugs. Use of herbal medicine, sometimes also referred as 'Herbalism', is an ancient practice for healing.

In most of the developing countries, the main source of medicines is plants and emphasis is given to indigenous forms of medicine rather than to rely on imported drugs, which are not only expensive, but are often incompatible with the local diseases. The commercial value of herbal medicines is high and gaining momentum in international market. The growing market for herbal

medicines and other natural health care products also demands an extensive research not only for its great healthcare potential but also for the commercial benefit.

In order to acquaint the scientists, researchers, academicians and industry representatives who are engaged in the work on the developments in the fields of medicinal plants, herbal medicines and traditional systems of medicines. This certificate course will be instrumental in bringing together the experts on traditional medicines to take an inventory of the major medicines in their respective regions / sub-regions as well as manufacturers of traditional medicines to share knowledge and experiences and seek possible business expansion.

Add on Course in Vacuum Science & Technology

Report on Add on Course in Vacuum Science & Technology

**M.G. ARTS, SCIENCE & LATE N.P. COMMERCE COLLEGE,
ARMORI, DIST. - GADCHIROLI (M.S.) - 441208**
Affiliated to Gondwana University, Gadchiroli
Re-accredited by NAAC 'A' with 3.02 CGPA

REPORT OF ADD-ON COURSE IN

VACUUM SCIENCE & TECHNOLOGY

15/11/2021 to 04/12/2021 (Duration: 34 Hours)

**SUBMITTED BY
Dr. C.D. MUNGMODE
DEPARTMENT OF PHYSICS**

INTRODUCTION

Vacuum technology has diversified applications in different areas of science and engineering. These includes the major fields like Electronics, Metallurgical / Chemical Processing, Food Processing, Space Simulation, Nuclear Technology, etc. This has resulted in rapid development of many sophisticated vacuum instruments, pushing the range of vacuum to 10^{-12} Torr. To introduce Undergraduate students to the field of vacuum science and technology is very essential. Keeping this in mind, present add-on course on *Vacuum Science & Technology* is undertaken by the Department of Physics.

OBJECTIVES

The main objectives of the Add-On Course are:

1. To enhance the knowledge and skills in more specialised area of Physics beyond curriculum.
2. To provide an opportunity to students to seek the knowledge about *Vacuum Science & Technology*.

COURSE DETAILS

- * Course duration : 34 Hours (15/11/2021 to 04/12/2021)
- * Course Co-ordinator : Dr. C. D. Mungmode
- * No. of students admitted : 18 students

EVALUATION

A Multiple Choice Questions (MCQ) Test of 50 Marks was conducted at on 05/12/2021. The students who scored 40 % marks in test and have minimum 75 % attendance were awarded by course certification. All the students successfully completed the course.

COURSE OUTCOMES

Following course outcomes are achieved after completion of this course

- * CO1 - Students got knowledge of various pumps and gauges.
- * CO2 - Physics behind different techniques of creating and measurement of vacuum is understood.

NAAC Reaccredited with 'A' Grade

Department of Chemistry

Brief Report
On

"Certificate Course in Hands on Training of Basic Chemistry Software's

Salient features of certificate course:

- ✓ Theory and practical session as per curriculum
- ✓ Lectures include entire process of downloading and installation of these software's.
- ✓ Hands on training on all these software's
- ✓ At end of course candidate will be able to use these open-source software's independently for their work.
- ✓ A certificate will be issued to the successful candidates

Objectives: The main Objectives of this certificate Course are:

- ❖ To provide an opportunity to students to seek the knowledge about various latest essential open-source chemistry tools which are Crucial for students and researcher.
- ❖ Improve their software uses skills through hands on training.
- ❖ At the end of course:
 - a) The students will be able to use these software's for drawing chemical structures, generation of their names.
 - b) Retrieve information about physical properties calculations, three-dimensional molecular structure, spectroscopic analysis.
 - c) Able to draw graphs by using origin software and do analysis of collected data.

Guidelines for conducting Certificate course:

- ❖ Students studying in B.Sc. Second and Third year are eligible for registration of this certificate course.
- ❖ Practicals for the hands-on training are conducted during the reserved time slot in a week or beyond the regular class hours.
- ❖ This course may be also conducted during weekends/ vacation period.
- ❖ The duration of the Add-On course will be 30 hours
- ❖ Evaluation Process: - internal assignment are given after Completion of module and final test will be conducted for 50 marks after the completion of the course
- ❖ All successful candidates will be awarded with certificates.

Procedure for registration: A student shall register for an Add-On Course offered during the semester by submitting the duly filled-in registration form to the course coordinator. The time table for the classes of Add-On courses will be notified to the students.

Grading: A Multiple-Choice Test (MCQ) of 50 Marks will be conducted at the end of the course through online/offline mode. Minimum 75% attendance and 40% marks in test are mandatory for award of certificate. A candidate who has NOT secured a minimum of 40% of marks in a course shall not be awarded certificate. The Grades will be awarded to the students depending on the percentage of marks obtained by a candidate in a course as below

<i>Grade</i>	<i>Marks (%)</i>
<i>A +</i>	<i>75 and above</i>
<i>A</i>	<i>60 - 74</i>
<i>B +</i>	<i>55 - 69</i>
<i>B</i>	<i>45 - 54</i>
<i>C</i>	<i>40 - 44</i>

Module 1 (4 hours)

ACD Che Sketch software: – Introduction, download and installation process, Drawing various chemical structures (acyclic, cyclic, polycyclic, heterocyclic), name generation from structures, conversion of name of molecule into its structure, calculation of physical properties such as density, molecular weight, molecular formula, refractive index from structural formula, bond angles, bond lengths, dihedral angles.

Learning outcomes: - After successful completion of this module candidate will be able to use ACD Chem Sketch for generation and processing of simple and complex chemical structures.

Module 2 (5 hours)

Cambridge ChemDraw Ultra software– Introduction, download and installation process, Drawing various chemical structures (acyclic, cyclic, polycyclic, heterocyclic), nomenclature generation, conversion of name into molecular structure, calculation of physical properties such as density, molecular weight, molecular formula, refractive index from structural formula. ¹H, ¹³C NMR prediction from molecular structure, Drawing structure of bigger molecules such as proteins, carbohydrates, and RNA/DNA, bio arts, use of templates, Comparison of ACD ChemSketch and Cambridge ChemDraw Ultra software.

Learning outcomes: - After successful completion of this module candidate will be able to use Cambridge ChemDraw Ultra for generation, processing and calculation of physical/chemical properties of simple and complex molecules.

Module 3 (8 hours)

Chem3D software: - Introduction, download and installation process, 3D structures of molecules, various 3D structure models, conversion of 2D structure into 3D structure, File extensions, Cartesian coordinates, Dihedral angles, Energy minimization, calculation of surface properties, calculation of molecular electrostatic potential (MEP) surface, electrostatic potential (ESP) surface, solvent accessible surface. Atomic charge calculations, Calculation of dipole moments, MM2 calculations, Huckel calculations, Calculation of UV and IR spectra using MM2 calculations.

Learning outcomes: - After successful completion of this module candidate will be able to study three dimensional properties of molecules which are highly useful in prediction of their chemical/ physical properties and can be applied in advanced research work.

Module 4 (5 hours)

Introduction to online chemical database search, Searching and downloading research papers using keywords in Scopus, Science direct, and google scholar, reaction search, product search, reactant search, structure search, markush search using Sci-finder. Introduction to End Note and its applications.

Learning outcomes: - After successful completion of this module candidate will be able to use online research tools efficiently and will be able to search research papers related to their topics more efficiently.

Module 5 (8 hours)

Chimera 1.12 software: - Introduction to Chimera software, Protein-ligand Docking, Protein data bank structure search, preparation of ligands and proteins for docking, Sites searching for ligand binding analysis, Docking of simple molecules over active site of protein molecules and analysis of docking results.

Learning outcomes: - After successful completion of this module candidate will be able to study drug-receptor interactions through docking. The knowledge of these interactions is a fundamental requirement for modern drug discovery process.

From 01/10/2021 to 04/12/2021

**Conducted by
Department of Dress Designing
Community College**

**Course Co-ordinator
Prof. Snehal Sonkusare**

Introduction:

Fashion design is the applied art devoted to the designing of clothing and lifestyle accessories. This art is influenced by cultural and social attitudes and has evolved over time and place. Fashion designing has come a long way from the designer clothes worn by the royalty of the ancient world to the haute couture products of the present.

Objectives:

The main objectives of the Certificate Course are:

1. To promote and understanding of fashion and textiles design in relation to the needs of fashion. Furnishing, home textiles and the business to business textile products.
2. To create an educational environment that approximates the actual conditions in industry by building studios and workshops containing state-of-the-art systems, resources, technologies and a community of creativity and innovation.

Guidelines for conducting Certificate course:

Students passed in HSSC are eligible for registration of Certificate course. Classes for the Certificate Course are conducted as per the reserved Timetable on regular class hours basis.

The duration of the Certificate course will be 01 year and as stated in the course content.

The final theory paper 03 and 02 practical will be conducted for 50 marks theory, 70 marks each practical and internal 15 marks after the completion of the course certificate issue.

Procedure for registration:

A student shall register for an Certificate Course offered during the semester by submitting the duly filled-in registration form to the course coordinator. The time table for the classes of Certificate courses will be notified to the students.

Introduction:

Fashion design is the applied art devoted to the designing of clothing and lifestyle accessories. This art is influenced by cultural and social attitudes and has evolved over time and place. Fashion designing has come a long way from the designer clothes worn by the royalty of the ancient world to the haute couture products of the present.

Objectives:

The main objectives of the Certificate Course are:

1. To promote an understanding of fashion and textiles design in relation to the needs of fashion.
2. Furnishing, home textiles and the business to business textile products.
3. To create an educational environment that approximates the actual conditions in industry by building studios and workshops containing state-of-the-art systems, resources, technologies and a community of creativity and innovation.

Duration of Course:

03 months and the lectures were delivered in every week for 3 hours from 11.00 pm to 2.00 pm. As the time was suitable for students.

Course Pattern:

Students underwent learning in theory, practical, students were also exposed to industrial exposure from industrial visit.

Brief Report on Certificate course in Herbal Medicine

(November, 2019 to February, 2020)

Herbal medicine has a long tradition in all cultures. Applications in practice have proven the huge benefits of herbs. As well as relieving symptoms, herbal medicine also works on a deeper level to help patients return to full harmony. Herbal medicine is becoming ever more popular, as ever more people seek out qualified herbalists.

Course Overview

Length of Study: 03 Months or 90 days (depending on chosen schedule)

Hours: in an average 90 hours

College Locations: M.G. College, Armori, District Gadchiroli, Burdi, Wadsa Road.

Certificate course: Herbal Medicine

Approval by: UGC sanctioned.

Herbal Medicine certificate course is divided into three parts and takes 03 months to complete depending on chosen schedule. Course run under the guidance of Principal of our college.

CERTIFICATE COURSE OBJECTIVES:

1. The Herbal Medicine certificate course provides high quality training which equips graduates to build successful practices.
2. It is carefully structured. Each study unit builds on the previous one, allowing students to develop their confidence and skills, and reach their full potential as Herbalists.

ABOUT THIS CERTIFICATE COURSE:

There is strong demand for alternatives to pharmaceuticals for a variety of common illnesses due to concerns of safety, efficacy, and a desire for more "natural" products. Despite this growing interest, "conventional" healthcare providers may have little to no knowledge about herbal medicines, which is further compounded by the sometimes misleading information in the media and on the internet. This course provides the necessary background for providers to begin to incorporate herbal medicines into their practice, particularly in regards to their therapeutic properties, efficacy (or lack thereof), and safety concerns, including quality control and potential adverse effects.

The use of herbal medicine, as one element of complementary and alternative medicine, is increasing worldwide. Little is known about the reasons for and factors associated with its use. This study derives insights for the use of herbal medicine regarding the usage aims, role played by the type of illness, reasons for preferred usage and sources of information. The major use of herbal medicines is for health

promotion and therapy for chronic, as opposed to life-threatening, conditions. However, usage of traditional remedies increases when conventional medicine is ineffective in the treatment of disease, such as in advanced cancer and in the face of new infectious diseases.

Why study Herbal Medicine in our college?

- In-depth, practice-oriented study leading to successful Herbalists.
- Excellent up-to-date educational material including ICT and practical based lectures
- Focus on whole, organic western herbs treating the whole person
- Experienced & supportive lecturers who are herbalists themselves
- Have your own finance & business plan, blog and social media

CERTIFICATE COURSE IN HUMAN RIGHTS

DECEMBER 2019 To FEBRUARY 2020

(3Months / 60 hours)

Introduction:

This course has been designed to give students an insight of perspectives of Human Rights. The course will enhance their expertise over the subject and will be an important value addition to the CV. This course is designed by the people having expertise over the subject matter and every module is prepared in simple language. The study group comprise principal and subject expert from the college, particularly the faculty with specialization in human rights.

Human Rights are those rights which every human being enjoys on the basis of equality irrespective of caste, race, religion, place of birth, sex or any other economic and social status. These rights are guaranteed under the constitution of India in the form of Fundamental Rights and Directive Principles of State Policy. Human rights are based on the principle of respect for the individual. Their fundamental assumption is that each person is a moral and rational being who deserves to be treated with dignity. They are called human rights because they are universal. Whereas nations or specialized groups enjoy specific rights that apply only to them, human rights are the rights to which everyone is entitled—no matter who they are or where they live—simply because they are alive. There is no question these are important rights, but the full scope of human rights is very broad. They mean choice and opportunity. They mean the freedom to obtain a job, adopt a career, select a partner of one's choice and raise children. They include the right to travel widely and the right to work gainfully without harassment, abuse and threat of arbitrary dismissal. They even embrace the right to leisure.

The main Aims and objectives of the 'Certificate Course in Human Rights' are as follows:

Aims & Objectives: -

1. To enhance Human Right knowledge among students.
2. To give information about the history of human rights and modern human rights as well.

Brief Report on Certificate course in Herbal Medicine

(December/2018 to March/2019)

Herbal medicine has a long tradition in all cultures. Applications in practice have proven the huge benefits of herbs. As well as relieving symptoms, herbal medicine also works on a deeper level to help patients return to full harmony. Herbal medicine is becoming ever more popular, as ever more people seek out qualified herbalists.

Course Overview

Length of Study: 03 Months or 90 days (depending on chosen schedule)

Hours: in an average 90 hours

College Locations: M.G. College, Armori, District Gadchiroli, Burdi, Wadsa Road.

Certificate course: Herbal Medicine

Approval by: UGC sanctioned.

Herbal Medicine certificate course is divided into three parts and takes 03 months to complete depending on chosen schedule.

CERTIFICATE COURSE OBJECTIVES:

1. The Herbal Medicine certificate course provides high quality training which equips graduates to build successful practices.
2. It is carefully structured. Each study unit builds on the previous one, allowing students to develop their confidence and skills, and reach their full potential as Herbalists.

ABOUT THIS CERTIFICATE COURSE:

There is strong demand for alternatives to pharmaceuticals for a variety of common illnesses due to concerns of safety, efficacy, and a desire for more "natural" products. Despite this growing interest, "conventional" healthcare providers may have little to no knowledge about herbal medicines, which is further compounded by the sometimes misleading information in the media and on the internet. This course provides the necessary background for providers to begin to incorporate herbal medicines into their practice, particularly in regards to their therapeutic properties, efficacy (or lack thereof), and safety concerns, including quality control and potential adverse effects.

The use of herbal medicine, as one element of complementary and alternative medicine, is increasing worldwide. Little is known about the reasons for and factors associated with its use. This study derives insights for the use of herbal medicine regarding the usage aims, role played by the type of illness, reasons for preferred usage and sources of information. The major use of herbal medicines is for health

promotion and therapy for chronic, as opposed to life-threatening, conditions. However, usage of traditional remedies increases when conventional medicine is ineffective in the treatment of disease, such as in advanced cancer and in the face of new infectious diseases.

Why study Herbal Medicine in our college?

- In-depth, practice-oriented study leading to successful Herbalists.
- Excellent up-to-date educational material including ICT and practical based lectures
- Focus on whole, organic western herbs treating the whole person
- Experienced & supportive lecturers who are herbalists themselves
- Have your own finance & business plan, blog and social media

CERTIFICATE COURSE IN HUMAN RIGHTS

DECEMBER 2018 To FEBRUARY 2019

(3Months / 60 hours)

Introduction:

This course has been designed to give students an insight of perspectives of Human Rights. The course will enhance their expertise over the subject and will be an important value addition to the CV. This course is designed by the people having expertise over the subject matter and every module is prepared in simple language. The study group comprise principal and subject expert from the college, particularly the faculty with specialization in human rights.

Human Rights are those rights which every human being enjoys on the basis of equality irrespective of caste, race, religion, place of birth, sex or any other economic and social status. These rights are guaranteed under the constitution of India in the form of Fundamental Rights and Directive Principles of State Policy. Yet many people, when asked to name their rights, will list only freedom of speech and belief and perhaps one or two others. There is no question these are important rights, but the full scope of human rights is very broad. They mean choice and opportunity. They mean the freedom to obtain a job, adopt a career, select a partner of one's choice and raise children. They include the right to travel widely and the right to work gainfully without harassment, abuse and threat of arbitrary dismissal. They even embrace the right to leisure.

The main Aims and objectives of the 'Certificate Course in Human Rights' are as follows:

Aims & Objectives: -

1. To enhance Human Right knowledge among students.
2. To give information about the history of human rights and modern human rights as well.
3. To cultivate social welfare from the awareness of Human right.
4. To spread information about Human Rights and Duties.
5. To inform the learner about Human Rights issues and develop basic understanding of Human Rights and their enforcement.

Brief Report on Certificate course in Herbal Medicine

(December/2017 to March/2018)

Herbal medicine has a long tradition in all cultures. Applications in practice have proven the huge benefits of herbs. As well as relieving symptoms, herbal medicine also works on a deeper level to help patients return to full harmony. Herbal medicine is becoming ever more popular, as ever more people seek out qualified herbalists.

Course Overview

Length of Study: 03 Months or 90 days (depending on chosen schedule)

Hours: in an average 90 hours

College Locations: M.G. College, Armori, District Gadchiroli, Burdi, Wadsa Road.

Certificate course: Herbal Medicine

Approval by: UGC sanctioned.

Herbal Medicine certificate course is divided into three parts and takes 03 months to complete depending on chosen schedule. Course run under the guidance of Principal of our college.

CERTIFICATE COURSE OBJECTIVES:

1. The Herbal Medicine certificate course provides high quality training which equips graduates to build successful practices.
2. It is carefully structured. Each study unit builds on the previous one, allowing students to develop their confidence and skills, and reach their full potential as Herbalists.

ABOUT THIS CERTIFICATE COURSE:

There is strong demand for alternatives to pharmaceuticals for a variety of common illnesses due to concerns of safety, efficacy, and a desire for more "natural" products. Despite this growing interest, "conventional" healthcare providers may have little to no knowledge about herbal medicines, which is further compounded by the sometimes misleading information in the media and on the internet. This course provides the necessary background for providers to begin to incorporate herbal medicines into their practice, particularly in regards to their therapeutic properties, efficacy (or lack thereof), and safety concerns, including quality control and potential adverse effects.

The use of herbal medicine, as one element of complementary and alternative medicine, is increasing worldwide. Little is known about the reasons for and factors associated with its use. This study derives insights for the use of herbal medicine regarding the usage aims, role played by the type of illness, reasons for preferred usage and sources of information. The major use of **herbal medicines** is for health

promotion and therapy for chronic, as opposed to life-threatening, conditions. However, usage of traditional remedies increases when conventional medicine is ineffective in the treatment of disease, such as in advanced cancer and in the face of new infectious diseases.

Why study Herbal Medicine in our college?

- In-depth, practice-oriented study leading to successful Herbalists.
- Excellent up-to-date educational material including ICT and practical based lectures
- Focus on whole, organic western herbs treating the whole person
- Experienced & supportive lecturers who are herbalists themselves
- Have your own finance & business plan, blog and social media

CERTIFICATE COURSE IN HUMAN RIGHTS

DECEMBER 2017 To FEBRUARY 2018

(3Months / 90 hours)

Introduction:

This course has been designed to give students an insight of perspectives of Human Rights. The course will enhance their expertise over the subject and will be an important value addition to the CV. This course is designed by the people having expertise over the subject matter and every module is prepared in simple language. The study group comprise principal and subject expert from the college, particularly the faculty with specialization in human rights.

Human Rights are those rights which every human being enjoys on the basis of equality irrespective of caste, race, religion, place of birth, sex or any other economic and social status. These rights are guaranteed under the constitution of India in the form of Fundamental Rights and Directive Principles of State Policy. Human rights are based on the principle of respect for the individual. Their fundamental assumption is that each person is a moral and rational being who deserves to be treated with dignity. They are called human rights because they are universal. Whereas nations or specialized groups enjoy specific rights that apply only to them, human rights are the rights to which everyone is entitled—no matter who they are or where they live—simply because they are alive.

Yet many people, when asked to name their rights, will list only freedom of speech and belief and perhaps one or two others. There is no question these are important rights, but the full scope of human rights is very broad. They mean choice and opportunity. They mean the freedom to obtain a job, adopt a career, select a partner of one's choice and raise children. They include the right to travel widely and the right to work gainfully without harassment, abuse and threat of arbitrary dismissal. They even embrace the right to leisure.

The main Aims and objectives of the 'Certificate Course in Human Rights' are as follows:

Aims & Objectives: -

1. To enhance Human Right knowledge among students.
2. To give information about the history of human rights and modern human rights as well.
